Power Talk: The Vision Solutions Podcast Dives Deep on all things IBM i with Industry Luminaries

Guest Dan Riehl discusses IBM i security, including key vulnerabilities, and tips regarding this critical piece of IT resilience in episode six

IRVINE, CA (July 24, 2017) – Vision Solutions, a leading provider of business resilience solutions for IBM Power Systems, announced today the availability of its new podcast, Power Talk. Each episode of the podcast features in-depth discussions with industry legends and luminaries on business resilience issues relevant to IBM i users, including high availability, disaster recovery, security, etc. Six episodes are currently available featuring guests (in order of appearance):

1. Dr. Frank Soltis, the father of IBM i
2. Larry Youngren, retired leader of IBM's remote journaling team
3. Ron Peterson, retired leader of IBM's clustering team
4. Craig Johnson, 30-year industry veteran and Vision Solutions' VP of Research and Development
5. A collection of industry players from the show floor of COMMON

Episode six, the most recent episode in the series, features security expert and consultant Dan Riehl discussing security best practices, key i vulnerabilities, what every auditor should know about IBM Power environments and more tips regarding this critical piece of IT resilience.

[Tweet about episode six of the Vision Solutions podcast](#).

"Vision Solutions designed the Power Talk podcast for the IT professional using IBM i systems, inviting the most knowledgeable industry experts to share their extensive knowledge on the subjects affecting the industry today and in the future," said Edward Vesely, EVP and CMO of Vision Solutions. "Dan Riehl's insights on IBM i security perfectly illustrate the value of sharing industry expertise, and the impact it can have on business resilience issues for IT organizations; security has become increasingly important as vulnerabilities emerge in critical systems."
