

# Managed Security Services for Enforcive Security Solutions

## Expert Managed Security Services Deliver Optimum IBM i Protection and Peace of Mind

The Enforcive Enterprise Security Suite provides a powerful set of tools for managing security and compliance on the IBM i. But great software is just the start. Comprehensively securing your IBM i and keeping your company in compliance requires vigilance, attention to details, and most of all, expertise. Unfortunately, many companies simply can't dedicate a member of its IT staff to stay on top of ever-evolving threats and changing best practices—or if they can, more pressing IT projects often compete for time and attention. That's why a growing number of companies are choosing a managed security services program with dedicated experts who regularly monitor, manage and optimize security for their business-critical IBM i environments.

Vision Solution's Managed Security offerings can put your mind at ease and allow you to focus your valuable time on other priorities. Our security experts put decades of experience to work protecting your system environments and ensure you get maximum benefit from your Enforcive security solution.

### Key Benefits

- Rest easy knowing that seasoned experts are optimizing security settings and regularly monitoring for vulnerabilities
- Minimize the risk of a security breach or compliance violation
- Free up your IT staff to focus on other important projects
- Choose from a full range of managed services options that cover everything from daily security reviews to 24/7/365 intrusion-detection monitoring
- Stay up to date on new Enforcive security software versions and benefit from the latest features
- Budget our affordable managed security services as an operational expense
- Fill skillset gaps, address short-term needs, or choose year-round coverage
- Receive timely, clear, professionally-formatted status reports that satisfy the needs of auditors, IT managers and executives

## Choose the Managed Security Services Level that Fits Your Needs

### Bronze Level:

We perform security health checks each business day and provide a monthly report on the health of your security settings.

### Silver Level:

We perform security health checks each business day, make approved security configuration adjustments as needed, and provide a weekly status report.

### Gold Level:

Receive all of the Silver Level services plus we implement all Enforcive software hot fixes, PTFs and version upgrades as they become available.

### Platinum Level:

Receive all of the Gold Level services plus daily intrusion detection monitoring and auditor assistance services (SecurityAuditorAssist).

**All levels include an annual security risk assessment.**

	Bronze	Silver	Gold	Platinum
